Last week we clipped an item about Rembert's wagon from a Brownsville paper, and credited it to the Banner. It should have been credited to the Herald, which is altogether a different sheet.

Can you be out? No hunting around for items. While we may deny it, we think the weight of evidence is that he is mistaken. Be careful, can you, or you will be "ruined politically and financially, by god."

Some of the young fellows seemed to think it was a tip time for a warm drink.

MYSTERY.

During the year 1864, one sultry evening in July, a "heavily armed, solitary horseman might have been seen, wending his way" through the streets of Lexington. "His noble steed" showed signs of hard riding, its flanks being covered with foam, and its sides plainly showing that the cruel spur of the rider had been vigorously used in his flight from "what?" Just as he arrived in front of the Auld Bank, the rider dismounted, hastily entered, carrying with him a new carpet bag, dropped it upon the counter, and requested the astonished teller to take good care of it until his return. He then as hastily withdrew, mounted his pining horse, and plunging his spurs into its sides, was off in a twinkling. He is a delegate to the Southern General Assembly. Capt. J. D. Connor, recorder of deeds for Lafayette county, is in the city, and stopping at the Southern. Soldier, poet, officer, bold, and brave, he is a popular figure in everything connected to be carried out, from a serenade to a bombardment, it will take him at least a week in St. Louis to see all his old friends, and talk over two minutes each with all his old comrades. He is a delegate to the Grand Lodge of Odd Fellows now in session here.

A large number of New York and Boston capitalists, representing some \$400,000,000, under charge of Andrew Pierce, President, and A. A. Talmage, General Superintendent of the A. P. R. R., came in on a train of sleeping coaches, yesterday morning. After taking a general survey of the surroundings of the depot, visiting the coal shaft, examining the grasshoppers, etc., they took their departure. They were met at the depot by quite a number of prominent citizens who did all in their power to make their short visit as agreeable as possible. The capitalists expressed themselves delighted with our country and its resources, but did not seem to admire our grasshoppers to any considerable extent.

It is suggested by a great number of our friends, both in town and country, that the population in the grasshopper section turn out on mass next week and destroy the pests in every possible way. Some suggest fire, some suggest gunpowder, some suggest dynamite, and some suggest a combination of all these. We do not doubt that the result wished for can be accomplished, if the movement is general. Some of the farmers near town, including Messrs. A. C. Williams, George Trail, R. J. Smith, A. Loring, and many others, have commenced operations, and have succeeded thus far in keeping them from doing any damage to their crops. Mr. C. O. Grimes, assisted by Wiley Jennings and J. A. Graham, this week, upon one occasion, caught more than a loaded wagon full of them. And Tuesday, with an additional assistant, captured 11 bushels within the same time. His plan is to take 104 sheets of cotton and make a net similar in construction to the old-fashioned fishing-net, and to set this upon the ground in sloping places, and then to drive the grasshoppers into it, emptying it from time to time as may be required. He says that from a gallon to a peck would be the quantity caught at each drive, and that where he has been operating the pests are nearly exterminated. He has very good sheets, seven to eight feet long, and a great deal of interest was shown in the matter. Mr. J. E. Ryland was chosen temporary president, and Mr. Root, of Kansas, secretary and recorder. The committee on permanent organization, E. Winsor, M. F. Royle and Rev. Mr. Kerr, reported as permanent officers: John E. Ryland, president; Prof. A. F. Fleet, vice-president, and Rev. J. A. Quaries, secretary and recorder. Mr. Cobb, J. D. Connor, Esq., and Xenophon Ryland, Esq., were appointed delegates to attend a state convention, to be held at St. Louis on the 25th inst.

A state ointment, Prof. Riley, in a letter published this week, thinks the grasshopper scare is unnecessary and thinks the farmers should go to work cheerfully and their labors will be rewarded by abundant crops.

The end of everything—the letter. Can you spell consent in three letters? Yes.

The three champions with whom you should always keep your good terms—first, your wife; second, your stomach; third, your conscience.
